

## Huapont New Year Greetings

Dear friends,

We are Huapont Pharm—Dermatology solution expert In China. Thank you for your care and support of 2017. And the Chinese Spring Festival and the new year of Dog is approaching, here I represent the Huapont family to wish you a happy new year and all the best!

2017 is a turning point to Huapont Pharm for two new FDF pipelines have started to build in Chongqing Shuitu industrial Park and Chengdu Wenjiang Park respectively. These pipelines are set to meet the cGMP standard of EU&US. It will not only provide thousands of jobs but also increase Huapont product market share overseas after finishing construction in 3~5 years time. The target to do OEM and contract manufacturing for global customers will not change!

Currently, the competition of FDF exporting is fierce, have the ability to manufacture life saving drugs is not enough. Our views should focus on the markets. We investigated the market, we held meeting to negotiate with semi-final and final customers, we also studied the good examples of pharmaceutical industry.

Last but not the least, the Yubei factory passing China GMP and PIC/S GMP in 2015 will continue doing OEM and contract manufacturing for global customers in the new year 2017! Please click the link to see the products Huapont produce: <http://api.huapont.cn/plus/list.php?tid=7>

Any possible projects on your hands or any suggestions, please feel free to contact me or leave online message all at <http://api.huapont.cn/> !

Best Regards,

Michael Wangxin
